DESCRIPTION

PowerPoint is a slide show software that can be used to display teaching content using Microsoft office.

- You can Design your presentations entirely on PowerPoint
- By Choosing from PowerPoint's ready templates.
- Or Add text, image, audio, and video.
- Then, add transitions, animations, and motions to your slides.

INSTRUCTIONS FOR IN-PERSON TEACHING

Use your laptop to display slides on a projector or big screen
Move between slides of the lesson as needed

Display video or audio using a hyperlink

Engage your students by using artistic pictures, font colors and sizes used in designing your slides

INSTRUCTIONS FOR VIRTUAL TEACHING

Display your presentation on your computer.

Share screen with others who are meeting with you virtually.

Your slides appear on the screen in the meeting.

PowerPoint files may be shared with students via chat box as an attachment.
